## GRAPE VINES—Interlaken Seedless

We are offering this variety for the first time this year. We have these in bearing and find it the best of the Seedless Grapes so far. It ripens to a golden yellow the last week in August. The clusters are large and compact, the berries medium size. The quality is excellent. In the five years we have had this variety in bearing we have had no winter injury.

Interlaken Seedless was originated at the Geneva Experiment Station. It is very well recommended by the New York State Fruit Testing Association.

All orders are booked with the understanding that they are void should injury befall our stock from any cause beyond our control.

We give no warranty expressed or implied. The purchaser assumes all risks after stock is delivered to the carrier.

Correspondents are requested to use their business letterheads as we cannot give wholesale prices to retail buyers.

---

## TERMS

Packing free when cash is received with order.

2% discount when payment is received within 10 days after receipt of goods.

We are located in the heart of the Chautauqua Grape belt where the best grape vines have been grown for over fifty years. During our forty years in this business we have been trying new varieties and discarding those that do not prove worthwhile. Do not hesitate to consult us as to the merits of any varieties you may be interested in.
